UMAR FAROOQ

Web Developer | Full Stack & Mobile App Development

PROFILE SUMMARY

Full Stack Web and Mobile Application Developer with hands-on experience delivering end-to-end solutions using modern web technologies and Flutter for cross-platform app development. Skilled in translating client requirements into functional, user-friendly systems, ranging from business and portfolio websites to management systems and Android applications. Experienced in software maintenance, digital project coordination, and technical mentoring, with a strong record of teaching and guiding others in web and mobile development. Comfortable operating and troubleshooting computer systems daily, quick to learn new tools and technologies, and consistent in meeting deadlines across multiple concurrent projects.

WORK EXPERIENCE

Flutter Tutor

SDRC Institute, Nankana Sahib

Jan 2026 – Present

- Instruct students in Flutter framework fundamentals and hands-on Android app development.
- Guide learners through real-world app-building exercises, code reviews, and debugging practices.

Web Developer Tutor

Cybercoreuk, UK

Jan 2025 – Present

- Develop and maintain web and mobile software systems, operating computer systems daily with strong attention to detail.
- Manage digital documentation and project coordination with high accuracy.
- Handle multiple tasks and projects simultaneously while meeting deadlines consistently.

PROJECTS

Academic Project — WhatsApp Mini Chat App (Flutter)

Final year project at Baba Guru Nanak International University (BGNU) — built a real-time mini chat application in Flutter with core messaging functionality.

Web Development Projects

Designed and developed a range of websites and web applications including School Management Systems, a Learning Management System (LMS), Travel Agency websites, Invoicing systems, Portfolio websites, and Business websites — focusing on clean UI, responsive design, and reliable back-end functionality.

Flutter (Android) Projects

Built multiple Android applications using Flutter, including a WhatsApp Mini Chat App, an Alumni Tracking System, a Quiz App, a Patient Record App, a Prayer Counter App, and a Hotel Record App — covering diverse functionality from real-time communication to data management.
